

NOTICE

OR

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Modification - 2

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

Name

Address

Telephone

DAN SHUMWAY

KIVA Drive 5.2
BLANDING, UT 84511

678-2976

Claimant Information (If different than operator):

Name

Address

Telephone

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM Serial No.):

Lucky CHANTZ UMC 343138

Location of Proposed Activity (i.e. Township, Range, Section):

Section 19, T36S, R23E

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

THE stream banks on BOTH sides of this proposed site were cleared of shrubs, OAK, etc. apparently by the pipe line equipment. The cleared wood, and debris is laying on the dirt banks which angle up and away from the gravel bottom.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

I am going to make a test trench at the same site that I made the small hand test pit (previous notice) I will use A D-4 cat Dozer, and a Rubber tired bobcat loader (1200 lb capacity bucket). This excavation will be in the gravel in the dry stream bed. it will be made running from the North to the South going down the stream. There is no overburden here. THE STREAM bed runs generally straight here for 200-300 ft. This cut will be approx. 10 ft. wide and 130 ft. long (1,300 sq. ft.) IT will be a gradual decline - THE deep end will be at least 7' deep, as the hand test pit reached

This depth without hitting bedrock. Samples of this gravel will be hauled to my sluice box (sample site) on the South west end of the Golden Chantz Claim

THE main road parallels the stream bed (about 15-20 ft. away) at the test pit site, an old road crosses the stream bed just above where the pit will be. it is still usable so I will use it for Access to the stream bed. - NO Explosives will be used

Period of Operation: From MAY 25, 1991 To OCT 31, 1991

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

All work will be done in the dry stream bed - if a period of non-operation occurs and the stream has not already filled in this cut I can push it back level with the cat or loader.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: Alan Shumway Date May 14, 1991

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:

San Rafael & Price River Resource Areas
900 North 700 East
Price, Utah 84501

Grand Resource Area
P. O. Box M
Moab, Utah 84532

San Juan Resource Area
435 North Main Street
Monticello, Utah 84535
